Yes, 25' is sufficient. Pipe installation on her property started in Dec '08 and was completed in August '09.

Thanks Brad. Could you live with a 25 foot easement? Also, do you happen to know the time frame (at least the year) when the sewer was installed in this area? I am drafting a settlement agreement and want to accurately describe when it was installed. Thanks.

-Mark

Sorry Mark, you sent this after I left yesterday. I saw on the Sun website that the settlement was approved by council. Do you still want the 25' easement drawing & description? It is easy to do.

Brad

Thanks, Brad. That's great. Would it be much trouble to make the easement 25 feet wide? If not, would you be able to email a drawing for a 25 foot wide easement?

-Mark
